

[Representative/Senator]
Address

Dear XXX,

The *Preserve the NRV*, is a group of citizens united in their effort to STOP EQT/NextEra's proposed pipeline from going through the New River Valley. We have recently begun an extensive campaign to inform the entire New River Valley area and other localities of the undesirable affects this pipeline will have on our land, water, habitat, environment, people, scenic vistas and even our local cultural heritage. It is not just for us, but for future generations of Virginians.

We, the residents of the New River Valley, are being given scant information from EQT/NextEra. However, from others who are going through a similar assault on their lives and property, we are beginning to see the likely disruption construction of a 300 mile 42" diameter, 1440 psi, 23,000 cubic feet per second natural gas pipeline will cause to underground water flows, silting & contamination of rivers & streams, and the danger of explosion causing fires, property damage and even loss of life.

You have a fiduciary responsibility to your constituents, so I am asking you to go on record in opposition to this proposed pipeline. It is the will of the people you represent.

Although we are currently united to **STOP** the pipeline, we are fast becoming a communication resource for all of the New River Valley. During the last election almost 71,000 voters turned out in counties comprising the New River Valley. There were more than 1,790,000 voters across the seven Virginia counties potentially affected by this pipeline. We are asking that you hear our collective voice.

Sincerely,

Your Name
Preserve the NRV
